

PennState
World Campus

WHAT IS **MATH?** **ESSENTIALS** ●

Math Essentials is a noncredit, two-week prep course available to you when you're scheduled to take **MATH 4, 21, or 22**. In this course, you can:

- › work with a math instructor to refresh your math skills
- › review study skills, note-taking, and time management
- › learn about the technology used in Penn State math courses

Register for 
Math Essentials

Reminder:

You will need an **ALEKS 360** subscription to participate in **Math Essentials**. If you have previously participated in **Math Essentials**, you are welcome to participate again.

WHAT IS **ALEKS?** **360** ●

- › 52 weeks of ALEKS access, necessary for completing assignments in your math course(s)
- › eBook and textbook resources for your math course

How much does ALEKS 360 cost?

ALEKS 360 costs about \$170 for 52-week access. You can use the same subscription for two subsequent math courses.

When should I purchase ALEKS 360?

Math Essentials participants should wait to purchase their subscription until ***the first week of Math Essentials***.
